Instructions for persons with a positive test result and persons living in the common household with them:

During the period of 14 days from the test with a positive result of the examination for COVID-19, the person shall observe:

- a) isolation at home or in other suitable accommodation, measures aimed at limiting physical contact, including not accepting a foreign person in the dwelling, or in an object intended for isolation,
- b) the prohibition of meeting persons other than those in the common household, prohibition of travel,
- c) at the same time, all close contacts of the COVID-19 positive person are in quarantine, especially people living in the common household,
- d) inform your general practitioner (in the case of a child, a general practitioner for children and adolescents) about the test result by telephone, e-mail, SMS, etc.,
- e) daily monitoring of own symptoms typical of COVID-19 (at least one of the following: cough, shortness of breath, fever, loss of taste or smell),
- f) daily temperature measurement and recording,
- g) strict hand hygiene and wearing of face masks,
- h) all measures specified at <https://korona.gov.sk/> in the “What to do if I am COVID 19 positive?” and “What to do if I were in close contact with a COVID 19 positive person?”.

If any of the above symptoms (cough, sore throat, shortness of breath, fever) occur, you need to contact your attending physician or the locally relevant regional public health authority by telephone and then follow their instructions.
